ALL OVER

The News by Wire and Mail Carefully Condensed.

It is reported that Rev. W. J. Hunter, D. D., will be asked to contest the county of Carleton as the anti Jesuits and Equal Rights candidate at the next election for the Dominion parliament.

The Canadian Pacific Railway company's earnings for the week ending Aug. 7th were $235,000; for the same week last year $230,000. The above does not include the earnings of the Southeastern railway.

Nathaniel Reid, one of the oldest residents of London, Ont., and proprietor of the Crystal Hall, is dead.

The Montreal labor committee have invited Grand Master T. V. Powderly to attend their celebration in Montreal. Many sister associations from other places have promised to attend. His Worship Mayor Grenier will be asked to inaugurate the labor convention, which begins its session here Saturday.

The medical faculty of Laval is to be amalgamated with the Montreal school of medicine and surgery. All the leading conditions of amalgamation have been agreed to with but little opposition, and a joint committee having charge of the matter are now arranging for the faculty and teaching staff. The amalgamation faculties will form part of the Montreal University and will begin justly, commencing in October next and will have exceptional facilities, having Notre Dame Hospital, Hotel Dieu, and the Maternity Hospital under their control.

At a meeting of the printers in connection with the government printing bureau, Ottawa, it was decided that a rise of wages would be demanded of the government.

Hops in Prince Edward county, Ont., are being destroyed by vermin, mould and honey dew. The same may be said with regard to the hop yards in Leeds and Grenville, and from all appearances there will not be one ton of good hops picked in all these counties.

Richard Jarvis, a young man formerly of Port Hope and lately clerk at the Crawford house, Peterboro, was drowned at Buckhorn. Eli Welsh, of Peterboro, was about gone when rescued.

It is said that the Messrs. Anderson find the government and other demand for shipping so abnormal, that they are unable to get the new vessels finished within eighteen months. They must therefore rely on the existing ships.

A movement is on foot in Ireland to secure Canadian store cattle similar to those imported to Aberdeen.

British trade with Canada is fairly satisfactory; the exports from Great Britain increased 6.25 per cent. during July and one quarter per cent. during the seven months. Imports increased 15.15 per cent. for July and 13 per cent. for the seven months.

One hundred and twenty of Dr. Barnardo's girls were to have sailed yesterday for Canada.

IS IT DUTIABLE?

A Curious Problem for the Officials to Decide.

Solicitor Hepburn, of the United States Treasury Department, has been called upon to decide an interesting question in regard to the introduction into the United States of an electricity generated in a foreign country. It seems that an association of gentlemen have established an electrical plant at Niagara Falls on the Canadian side and propose to extend their wires to Buffalo for the purposes of illumination, etc. Before doing so, however, they desire to know whether the electrical current thus transmitted into the United States would be subject to a duty or other tax. It is believed the solicitor will evade the question by informing the persons interested that it is contrary to the rules of the office to answer hypothetical questions of this character.

AN ARRANT HUMBUG.

Father Whelan Trying to Make Dr. Hurlburt Fight.

Ottawa, Aug. 11.—Rev. Father Whelan has written another letter in reference to the arbitration case between himself and Mr. Hurlburt. After characterizing the doctor as an "arrant humbug," Rev. Father Whelan goes on to say: "I now call upon Dr. Hurlburt or his representatives to propose a date for the meeting of the four commissioners in order that the fifth may be named and the court properly organized. As I should not be expected to wait all the year on Dr. Hurlburt's convenience, I insist that this meeting be held before the 25th of the present month. The court can then make its own arrangements without any interference on the part of Dr. Hurlburt or myself. If the doctor is quite ready as, according to his own words, he has been from the first, he cannot reasonably or decently defer the inquiry any longer. Father Whelan also denies that any objections were made to Principal McVicar as one of the two arbitrators named by Dr. Hurlburt.

ONLY A TONIC.

Another Idol Smashed—The Elixir "Not Remarkable."

Kansas City, Aug. 10.—Doctors L. A. Berger and C. W. Adams have for three weeks past been conducting a series of experiments with the Brown-Sequard elixir of life at the home for the aged. The experiments were made upon two inmates of the home, aged 69 and 71 years respectively. The elixir was hypodermically injected twice a week, the patients being ignorant of the nature of the elixir. The effect has been quite satisfactory and the vitality of the men seems to have improved considerably. Dr. Berger thinks a mixture of opium, cocaine and brandy will have the same effect as the elixir. He will try it on two others of the inmates and make comparisons.

Washington, Aug 11.—Dr. Hammond, relative to Dr. Brown-Sequard's elixir of life, says: "It is not a remarkable discovery." He declared that the sensational publications about the new preparations were not authorized or justified in any way. The doctor then explained that the new remedy was believed to be the ensure of a tonic which was thought would be beneficial, especially to old people. He denounced the foolish story that it was something that was going to prolong indefinitely or restore old people to youth or anything of that kind.

Comox News.

Heavy fires, thick smoke, continued drought and short crops is the gist of the news brought down by the Isabel.

There was a grand dance at Mr. Pike's residence on Denman Island last evening when all the elite of Comox and vicinity were present.

The steamer Daisy, with McAuley, of the Victoria Lumber Company, is at Comox. Mr. McAuley is examining the extensive timber claims of the company.

Mr. James Dunsmuir, the President of the Union Colliery, is paying a visit to the works.

Reports are brought down that the recent importation is not giving satisfaction to the management, inasmuch as they are not considered to be earning the daily wage that is paid them.

Everything is quiet at the mines, but the work of opening and developing is being prosecuted with renewed vigor.

Rev. Mr. and Mrs. Fraser, of Victoria, have been spending a couple of weeks in Comox, and return highly delighted.—*Free Press.*

General Elections in France—A Martyr Made of the Late Judge Terry.

By Postal Telegraph.

London, Aug. 16.—Home Secretary Matthews, Justice Stephen and Baron Salisbury, Lord Chancellor, together with a number of experts, are in conference at the home office, in an endeavor to reach a decision as to the propriety of setting aside the decision of the court in the Maybrick case.

MAKING A MARTYR OF TERRY.

Stockton, Aug. 16.—Judge Porter, of Arizona, one of Terry's friends, will deliver the oration at the funeral of Terry this afternoon. He says he will go for Justice Field and denounce Terry's shooting as a foul murder. A number of citizens declare if Porter does this they will stop him if they have to use force. Feeling runs very high in this town and there is every prospect of a lively row this afternoon. Some alarm is felt at the county jail, where Nagle is confined, as the Terry followers threaten to storm the jail, an old two-story building, and take Nagle out and hang him up. The sheriff and eight officers are now guarding the jail and a number of the best men have been drafted in the service of the county, to be ready in case of a riot.

JUSTICE FIELD'S STATEMENT.

San Francisco, Aug. 14.—The Southern overland arrived at the Sixteenth street depot in Oakland shortly after 11 o'clock this morning. A great crowd had collected, telegraphic intelligence of the Lathrops tragedy having preceded the arrival of the train.

When the train stopped, the car in which Justice Field was sitting was at once besieged by United States officials and newspaper men. Justice Field maintained a quiet demeanor and replied as follows to the press representatives, when asked to narrate the particulars of the shooting:

"I can tell you the story in a few words. For the last few months all manner of reports have reached me that Judge Terry had threatened to subject me to some form of indignity if he should happen to meet me. This fact caused the United States marshal to decide to provide such protection as he could during my stay in this state.

"When I started for Los Angeles to hold court, Deputy Nagle accompanied me. He seemed to be a quiet and gentlemanly official, though I only met him twice while away from Los Angeles. He asked me in that city when I intended to return, and accompanied me, taking a seat in the sleeping car opposite me. We heard this morning that Judge Terry and his wife were on the train, but paid no attention to the fact.

"When we arrived at Lathrops, we entered the eating station to breakfast. I took a seat at the end of the table, while Nagle sat on one side of me. Terry and his wife came into the room and took seats soon after. As soon as Mrs. Terry saw me she went out of the room, as I afterwards learned, returning to the car for her satchel. Judge Terry rose and I supposed he intended to accompany her. Instead of doing so he walked back of me and struck me a heavy blow in the face. I was completely astonished and saw he was making ready to strike again. Nagle cried out, 'stop, stop!' but Terry did not desist, and, as he was raising his arm the second time, Nagle shot at him, the bullet entering the heart. He fell to the floor. Nagle shot a second time, but the shot did not strike him.

"Deputy Nagle was arrested at Tracy and taken to Stockton to await the result of the inquest.

"That is the complete story so far as I am aware of the facts."

GOT FOURTEEN YEARS.

New York, Aug. 16.—Eben S. Aller, formerly president of the forty-second street railway company, was convicted of fraudulent issue of the company's stock and sentenced this morning to 14 years at hard labor in the state's prison.

GENERAL ELECTION IN FRANCE.

Paris, Aug. 16.—It is announced in this morning's papers that a general election for the members of the Chamber of Deputies will be held on the 29th of September instead of the 22nd of that month as previously reported. An official proclamation to that effect, however, has not been made and the government may yet change the date. It is receiving reports from the prefects of departments as to the political status of their respective districts and on their statements the date will be fixed if it has not already been fixed. The moment was most propitious for the government and will most assuredly be settled, but in the mixed condition in which the parties are at present it is difficult for the government to decide as so many departments are politically uncertain.

GATE INTO TROUBLE.

London, Aug. 16.—Mr. Eilbourough, proprietor of a periodical called the *Wasp*, has been committed for trial on complaint of the actress Florence St. John, whose character Eilbourough alleged was immoral.

A CHEMIST'S OPINION.

London, Aug. 15.—Mr. Stewart, an analytical chemist of Glasgow, has written a letter stating as his deliberate opinion that Jas. Maybrick died from the effects of his secret habit of arsenic drinking, the poison being taken as a necessity. Mr. Stewart was prepared to testify at the trial of Mrs. Maybrick, and is the witness whose evidence the condemned woman declares was kept back. The *Lancet*, the most noted of the medical journals, prints a five column review of the trial of Mrs. Maybrick, and comes to the conclusion that the verdict was warranted by the evidence.

SEEKING INFORMATION.

London, Aug. 15.—The government is making a great effort to secure information by parliament of the contract with the Canadian Pacific railway for the transfer of mails for Hongkong, which it is proposed to send by way of Halifax. The proposal has developed great opposition on the part of the many important interests affected, and it is doubtful if the government will succeed in securing the necessary approval of parliament before adjournment. The contract also provides for the transfer of troops between intermediate points.

PUBLIC MIND EXCITED.

London, Aug. 15.—In the Lords to day, Lord Fitzgerald addressed an inquiry to the government as to whether it was prepared to consider the necessity for constituting a court of criminal appeal. In this connection was the Maybrick case, which at this time was forcing the question upon the public conscience. Lord Salisbury and the Lord Chancellor deprecated every attempt to make this question a subject of discussion at a time when the public mind was in a state of unceasing excitement. It was not desirable, he said, to debate so grave an alteration in the criminal law as that proposed at the time, when the jurors, witness and judge were being subjected to the most brutal violence, and when intimidation and insult were being heaped upon the home secretary in order to influence him in the discharge of a solemn duty. Lord Herschel held that wrong decisions were rare in criminal cases; still he trusted that the government would seriously consider the matter during the recess, in view of the wide spread feeling that a criminal appeal tribunal would provide needed security against possible injustice.

BIG STRIKE.

London, Aug. 16.—2,500 laborers at the East and West India and South London docks struck to-day for an additional penny an hour. The average pay is five pence per hour and for extra hazardous work six pence.

TO HONOR CHRISTOPHER.

Madrid, Aug. 16.—A petition signed by 800 people, including archbishops, bishops and patriarchs, has been sent to the Pope asking His Holiness to honor the name of Christopher Columbus with the title of "venerable" unanimous.

NOT BRIGHT, BUT HOPEFUL.

London, Aug. 15.—M. Decroleds, president of the patriotic league of France, in an interview to-day, expresses the opinion that the popular belief that Boulanger had concluded an alliance with the Orleanist party was mainly responsible for the General's defeat at the recent cantonal elections for states-general. M. Decroleds very frankly admits that his chief's present prospects are not very bright, but he has hopes that Boulanger and his party will still carry their banner to victory.

THE SHAH'S VISIT.

London, Aug. 16.—The visit of the Shah to this country and his kind reception by all classes have not been without profit to England's interest in the far east. It is reported that important agreements were concluded with the foreign British office, among them, one allowing the passage of British troops through Persian territory.

WEDDING FIXED.

London, Aug. 16.—The visit of the Czar to Berlin has been postponed until after the marriage of Prince Loubliberg and the Princess Anastasia.

SUCH THINGS DENIED.

London, Aug. 15.—In the Commons to-night, Thomas Sexton, member for West Belfast, stated it had been told him that the Home Office had authorized the postal officials to open all the letters which came from America addressed to Parnell by his mother. He asked if this was correct, and also if the Home Office had directed the postal officials to open and examine the letters sent to him (Sexton) as mayor of Dublin, by President Harrison. Mr. Matthews, home secretary, stated very emphatically that he had not authorized the opening of any of the letters to which Sexton had referred, nor, said he, was there the slightest ground for believing that President Harrison's letters to the mayor of Dublin had been opened by anyone connected with the post office department. If it was opened at all before it reached the hands of Mr. Sexton, it was done without the knowledge of the home office. Regarding alleged letters from America addressed to Parnell, the home office was likewise without any information on the subject. He could only say that the inquiry as to the alleged tampering with President Harrison's communication to Mr. Sexton was progressing.

EXCITED PARISIANS.

London, Aug. 16.—The French press takes no pains to conceal its temper over the love feast between the two emperors at Berlin, and the triple alliance is pleasantly referred to as a club which those two bloodthirsty monarchs hold over the head of la belle France. The Parisian population have worked themselves up over this incident to such a pitch that every body in Paris was ready to shoulder muskets yesterday when the rumor gained credence that William and Francis Joseph were about to visit Alsace together. Even M. Spuller, the French minister of foreign affairs, lost his head for the moment and in hot haste drove to the German embassy, where his fears were soon quieted with the assurance that there was no foundation for the story.

IN A WARM CLIME.

Toronto, Aug. 16.—D. Mitchell McDonald, the director of the Central Bank, who was absent from the city at the time of the collapse of that institution, now passes in Los Angeles, Cal., as "Judge" McDonald and spoke at a Y. M. C. A. meeting on a recent Sunday there.

TIRED OF LIFE.

Montreal, Aug. 16.—Joseph Handley, a prisoner under remand for breaking into a car, tried to suicide at the jail yesterday by hanging. He claims to be the stepson of Captain Delany, who is in the commissariat office.

HIS MITE.

Quebec, Aug. 16.—Rev. Father Turgeon, Superior of the Jesuit Order, is in town and has received a treasury cheque of some $13,000 interest on the sum recently voted to the order.

LOSS BY LIGHTNING.

Newington, Ont, Aug 16.—The barns and sheds belonging to Leonard Helmer, near here, were burned with this season's crop of hay, some grain and all his agricultural implements and a large quantity of oats. The barns were struck by lightning. The loss is $2000. insurance $1000.

ROSS THE CHAMPION.

Ottawa, Aug. 16.—Yesterday was Ottawa's civic holiday. The principal event of the day was the mounted sword contest between Duncan C. Ross and Professor McGregor. Ross carried off the honors.

A SUCCESS.

The Sale of Land at Vancouver Realizes $132,000.

Vancouver, Aug. 15.—To-day's sale of government lands in the townsite of Hastings and New Westminster district, adjoining this city, was an immense success. Property several miles from Vancouver sold at from $15 to $200 per acre, and all of that offered was sold. Much of it went to Victorians.

The total sum realized by the sales of government lands to-day was one hundred and thirty two thousand dollars.

The Ericsson Aground.

The American ship Ericsson, from Nanaimo, B. C., with a cargo of 2,113 tons of coal arrived at San Francisco after a narrow escape from loss. The tug Active attempted to tow her in when a heavy fog hung over the bay. The captain of the tug lost his reckoning and soon the ship struck on the beach a short distance south of the Cliff house. The Active vainly tried to pull her off. Word was then sent to this city for another tug. Both pulling together, the ship was got off and brought here slowly in a leaking condition.

An Honest Lad.

Thursday morning after the departure of the train from Nanaimo, Daniel McLean, the day telegraph messenger boy, found a satchel in the waiting room, which contained two watches besides a large amount of money. He promptly gave it to Mr. Shaw, the station agent, who locked it up in the safe awaiting the owner. The supposition is that a passenger leaving by the morning train, unintentionally left it behind.

SHOT AND KILLED.

Kingston, Aug. 16.—As a result of a quarrel Edward McLaughlin, a river driver, shot and killed Robert Ferguson, at Madawaska village.

A DOCTOR'S SENSATION.

Toronto, Aug. 16.—The Toronto medical men will enjoy a sensation next month. Four members of the profession will be arraigned before the medical council charged with unprofessional conduct, and a big fight will be made to have their names struck off the roll of Physician-Surgeons of Ontario.

A GLUTTON'S DEATH.

Halifax, Aug. 16.—Richard McAndrew, colored, of Barbadoes, a seaman on the war ship Tartarives, died in the marine hospital to-day in terrible agony from over eating. He was a glutton.

DIED COMING HOME.

Georgetown, Aug. 16.—A. C. McKinley, a surgeon dentist of this place, died suddenly at New York on his way home from the old country, where he had gone for his health.

Keith-Wilson will fill the position of assistant manager during Mr. Gillespie's absence.

Major J. G. Norris, collector of customs at Kootenay, is visiting the city after an absence of ten years.

Elixir of Life.

Although we have an instance of the elixir of life producing blood poisoning, the consensus of evidence is to the effect that it is all that is claimed for it, a remarkable stimulant. We clip the following from the Montreal *Star*: Dr. Robt. Longfellow, professor of Dermatology in the Cincinati College of Medicine and Surgery, conducted a series of experiments yesterday with Dr. Brown-Sequard's elixir. Tests were made on a dozen subjects. The first two patients were Thomas Alburn, an Englishman, 58 years old, and Fielden Weir, a colored ex-slave, age 70. The latter was bent and crippled with rheumatism and Alburn had been lamed by erysipelas. The liquid was injected in the arms and legs. When both subjects returned in the evening they could walk with ease. The exhilarating effect on the Englishman was great. He walked a dozen squares and declared all pain and stiffness had left his limbs. Both experiments were pronounced eminently successful. Dr. Brainard, of Cleveland, has also experienced successful results with the elixir in several cases where it was administered unknown to the subject.

Dr. Longfellow reports that in all the cases to whom he administered the fluid yesterday the effects were similar except one. That was in the case of a man 55 years old, in full health and in no need of a tonic. He experienced slight sickness. He reports further that the old colored man whose rheumatism was so completely cured last night, who says this morning that he still retains his restored strength, and that his family and friends regard his cure as little short of a miracle.

Vancouver Smelter.

The Vancouver council proposes notifying the smelting company that inasmuch as the time allowed for completing the work, according to contract, between the city and that company, has expired the bonus will be cancelled and further arrangements will have to be made between that company and the city, if said company wish to take advantage of any inducements that may be offered by the city for the completion of the smelting works.

AMERICAN ENTERPRISE.

Kettle River District—Spokane Northern Railway—Who is Asleep?

Your correspondent has been taking a trip to Vernon. Harvesting is nearly completed, and wheat was secured in excellent condition. I passed six steam threshers, some being overhauled ready for operation and two already at work. While there, I had an interesting interview with Mr. T. J. Hardy, a farmer from Grand Prairie, Kettle river, and from him I gleaned the following items. The Kettle river country is of the same character as the Spallumcheen and Okanagon, with the same kind of sedimentary subsoil, which renders that such a wonderful wheat growing district. As in the Spallumcheen-Okanagon district, no irrigation is needed, provided the land be properly cultivated. Three years ago there was only five settlers; now in Grand Prairie alone there are thirty-five. It is practically cut off (like the extensive mining district adjacent to them) from all communication with the rest of British Columbia, drawing all their supplies from American territory and paying the enormous duty. But things are likely soon to be better, owing to American enterprise. The Spokane Northern Railway is being rapidly pushed on to the mouth of Kettle river, and they expect to reach the boundary line this fall. They have engineers out examining the Kettle river valley with the view of tapping the Okanagon country. Mr. Hardy says that it is generally believed that a practical pass for a railroad can be found from Kettle river to Okanagon Mission, a distance of about 30 miles. Mr. Cougell, C. E., who has also just returned from Kettle river, whilst endorsing most of Mr. Hardy's remarks, does not believe that they will be able to get through that way to the Mission, but will take the more easy route by Rock Creek and Osoyoos. However the Americans seem to know the value of this country and intend to get here. A large area of land has been purchased in the neighborhood of Kettle Falls (probably the finest water power in British Columbia) and a city is being laid out to be called Cascade, which, owing to American capital and enterprise will no doubt grow apace. It is amusing to see the British Columbia Rip Van Winkles slumbering away, whilst their neighbors immediately adjoining, with no better country, are building up cities and railways, stealing their trade and throwing off the richness of their land.

Okanagon, Aug. 12

AN AMBERGRIS FIND.

The Good Luck Struck by a Maine Schooner on the Ocean.

Portland, Me., Aug. 7.—The schooner Fanny Lewis, belonging to Lewis, Chase & Whitten, which arrived to-day, brought in a rare cargo. While off Montegan Captain Henderson, who was sitting on the masthead, suddenly saw something white floating on the water. Moved by an impulse he shouted to the helmsman to keep her off. As soon as he was on deck he regretted giving the order, but concluded to run down and see what the object was. A dory was lowered and several of the crew jumped into it and pulled for the object, which seemed to be a mass of dough. The men smelt it and set out to return and leave it, but at last concluded to take it to the vessel. On board one of the seamen at once pronounced it ambergris. It was carefully put away in a barrel, which it two-thirds filled, and on arriving at the port the owners were told the good news. Several experiments were at once made to see if it was really ambergris, and the result seemed to show that it was without doubt. Samples were sent to New York, and also to Cummings, of this city, to be tested. The substance has a peculiar penetrating odor, and much resembles wax. It will melt in the flame of a candle, but will not run as grease would. It is used in making the finest kinds of perfume and retails for about $30 an ounce. The mass weighs a hundred pounds and, therefore, would be worth a matter of $25,000. This sum will be divided in the same manner that fish would be, the owner of the vessel taking half and the crew, of which there are fifteen, having the other half. Eight or nine hundred dollars apiece will pay the men very well for a short trip, and will do much towards counterbalancing the losses occasioned by the scarcity of mackerel.

THEO. DAVIE'S BAIT.

To THE EDITOR OF THE TIMES:

SIR,—Theodore Davie excels in no quality more than in his instinctive cunning. Fortunately for him, at this juncture, there is a fat billet to give away. The office of superintendent of provincial police is vacant owing to the ascending of the gay and festive Royerafi. It is needless to say that Theodore is working this position for all it is worth. His clearness in discerning suitable qualifications for the position among electors presumably opposed to him is remarkable!

It is said he has no less than 100 applicants on a string for the position, from parties embracing both sides of politics. The presumption is obvious. Theodore knows how to work the oracle. He will keep the bait dangling in their eyes until after the election. Then there will be some sore disappointments. Those who know Theo. Davie, however, will know what value to place on his promises, particularly at election times. Electors beware of his bait. He is as cunning as a fox, and as slippery as an eel. Theodore Davie can serve your interests best by being kept out of the government, and out of the legislative assembly.

REFORM.

ANOTHER LESSON WANTED.

To THE EDITOR OF THE TIMES.

SIR,—I see by the nomination of yesterday that the wealthy ring who tried to down Mayor Grant at the last municipal election has organized to defeat Dr. Milne. But Mayor Grant, with all their wealth and all their influence, and notwithstanding their determined attempt to crush him and all opposition, defeated them badly. If all the working people will only be true to themselves this time, the snobs will be taught another lesson.

PROGRESS.

SEWERAGE.

To THE EDITOR OF THE TIMES:

SIR,—Will you kindly give the ratepayers along the line of pipe now being laid some information with regard to connections, etc. Everyone connecting with the sewer have to make a hole through the pipe, etc. Would it not be better to suggest to the aldermen the advisability of leaving places to connect to? or everyone will have to break a hole in the side of the pipe for himself. What will be the consequence of such a course?

"A COUNTRY SEAT."

At Mr. DAVIE's meeting the leader of the government, Mr. JOHN ROBSON, boldly stated that should the Attorney-General be defeated in Victoria he would have no difficulty in securing a seat in a country constituency. It is possible that Mr. ROBSON referred to the district of Lillooet, now vacant, which will no doubt be kept open until after the election in Victoria; or he may have meant that one of the government supporters in the house would resign upon the defeat of the Attorney-General. In either case, it was an impolitic statement to make on a public platform. It implied, in the first place, that the Premier feared defeat and wanted to impress upon the electors that it was a matter of "no consequence" to the government any way; and, in the second place, that the government was independent of Victoria and didn't "care a snap," as Mr. ROBSON sometimes puts it, for public opinion in this city. It is more than probable that Mr. DAVIE could get a country seat if he tried very hard and offered a large enough bribe, and although it would be encouraging corruption in a country constituency it would be the lesser of two evils, and we advise its adoption. By all means let THEO. be elected for "a country seat," which Hon JOHN says he will have no difficulty in securing. The province will then not only have the benefit of his services as Attorney General but the services of Dr. MILNE as well.

COMFORT FOR THE NEWS.

The position in which our mainland contemporaries find themselves since the Attorney-General's pronunciamento, is, we should suppose, judging from the nature of their editorial utterances, excruciatingly painful. Constrained from motives of local interest to oppose the Canadian Western, yet bound to the government by the inexorable law that birds of a feather flock together, these organs are unable to either praise or curse, but like the fish worm impaled on the hook of the angler they writhe and twist, venting the while language in which reproach and menace are about equally blended. There is but one deduction to make from language of this description, and that is, that the Robsonian political "quickstep," as it is now being rendered, is chiefly distinguished by bewildering variations of "time," or if our meaning is not quite clear, these organs are ascertaining much to the disturbance of their vanity that the Robsonian political code offers no positive assurance that anybody but the Hon. JOHN ROBSON will derive any benefit from its operation. They are beginning to suspect that the Hon. JOHN ROBSON is perfectly capable of undertaking to propitiate one interest at the expense of another; that he has no moral compunctions to prevent him from duping Vancouver, provided he can still retain the approbation of Victoria. Our mainland contemporaries are "tumbling" to these facts, because like a great many people in Victoria they are at a loss to understand why the Hon. THEODORE DAVIE should so suddenly declare himself infatuated of transcontinental railways. They fail to understand why he alone should raise the issue offering himself the exemplar of railroadism as one to five. Is the Hon. THEO. DAVIE acting as spokesman for the government in this matter these journals ask in a slightly hysterical tone of voice, or are his railway pretentions a "fake" merely to catch the votes of Victorians. To set the mind of the News at rest, for that paper having more self-respect than any of its mainland contemporaries, is the worst perturbed over the situation, we will inform it, that the Hon. Theo. DAVIE's railway craze is assumed. His record in all other matters of public policy not being of a character that would bear scrutiny, and thinking that Victoria would accept the railway issue in connection with his candidature for the Attorney Generalship as a species of a chromo, and that the cabinet would not be required to endorse it as a work of art, he made use of it as his last and only resource. Victoria, however, is not such a fool as might be supposed. Much as she desires to become a terminal point for a railway she declines to accept the seductive proposition of the Hon. THEO. DAVIE unless it has the endorsement of his colleagues. It has struck Victoria with some force that the Hon. THEO. DAVIE, unsupported by the rest of the cabinet, would scarcely be able to accomplish more towards the consummation of the railway in question than a simple "Chinese herder." Nor is it at all likely that the cabinet will endorse the Hon. THEO DAVIE. The Premier last Monday night scarcely alluded to the Hon. THEO. DAVIE's policy at all. The Premier omitted to mention whether he, the Premier, was a railway man or not. He doubtless remembered that his mainland constituents were not railway men, and naturally he experienced a delicacy in placing himself in opposition to them. Now we appreciate the Hon. JOHN ROBSON's tenderness in this respect. We recognize how essential it is for a politician to be in accord with his constituents. Reciprocity of this character is inseparable from continuance in office. Nevertheless, since the Hon. THEO DAVIE comprises only one-fifth of the cabinet, since in this degenerate province minorities are not supposed to rule, the Hon. JOHN ROBSON's failure to endorse the Attorney Gen., which is the *sine qua non* of the latter's ability to perform what he promises, may be regarded with positive distrust. Until the Hon. JOHN ROBSON endorses the Hon. THEO. DAVIE's railway policy, not alone on behalf of himself but his colleagues as well, the Attorney General's railway professions must be regarded a "fake," an illustrious example of the subterfuge of a demagogue. There is nothing, therefore, in the political situation which need alarm the News. So long as the other four members of the cabinet remain mum, Vancouver's prestige as a terminal point will continue unimpaired. Even should the Hon. THEO. DAVIE be elected, the cabinet remaining non-committed the while, no harm can come to Vancouver, because you may depend that the Premier, not having given himself away, will not jeopardise his popularity with his mainland constituency by endorsing the Attorney General. There will be a DAVIE meeting on Saturday night, and another the night before the election, and if the Hon. JOHN ROBSON should unqualifiedly commit himself to the DAVIEN policy we will drop the News a line.

THE SCHOOL INIQUITY.

The public must not allow itself to be diverted from one of the issues of the school question, and that is the feature of it by which the Premier with the help of co-conspirators like the Hon. THEO. DAVIE, passed a law last winter reducing school trustees to mere figure heads. Under the existing law, for which the Premier is wholly responsible, the *dismissal* of teachers rests with him. It matters not to the Hon. JOHN ROBSON who hires the teachers, but it does make a vast difference to him who discharges them. The power to dismiss lodged in him it becomes in a sparsely populated province like this a powerful political weapon, and may be made to materially influence an election. If there is any one department of the state which should be kept out of politics it is the department of education, and yet as the law stands the teacher who ventures to differ from the Premier politically does so to the jeopardy of his position. Nor may we suppose that the school teachers will be permitted to remain neutral in regard to political matters. The peculiar quality of mind and moral composition which could conceive of, and attempt to justify a law, which in effect gives autocratic power to the head of the department of education, is the peculiar quality of mind and moral composition which would make every one of the teachers political serfs. It is impossible to suppose that men who could conceive of such a law would permit the persons who come under its operation to remain neutral. The Hon. JOHN ROBSON evades this feature of the school question, and it is needless to remark so does the Colonist. The Hon. THEO DAVIE supported this iniquitous law, and he fights shy of it. We repeat that men who could conceive of such a law would put it to base uses, and yet, says Dr. HELMCKEN, should the Hon. THEO. DAVIE be beaten in this contest it would be a sore calamity to Victoria.

EDITORIAL NOTES

The captain of the Rush is said to have saluted the captain of the Black Diamond with the remark, "Heave to; I wish to board you." It afterwards appeared, however, that the Black Diamond had both to board and lodge the Rush's able seaman.

During the month of July the net debt of the Domion was increased by $3,474,279 and is now $237,050,616. The interest upon this enormous debt amounts to nearly eleven millions of dollars a year. The Dominion debt is increasing at the rate of about a million dollars a month on the average.

A British naval officer has devised a method by which boats may be propelled without the use of oars. It consists of a screw propeller worked by hand, which will enable a boat to be driven by any one, although unacquainted with rowing. In case of shipwreck it would be of great value, as passengers could manage a boat without the aid of sailors.

It is understood that Mr. Davie will run for Lillooet when he is defeated in Victoria. The government wirepullers in that district have been advised to that effect and requested not to complicate matters by bringing out another candidate in the meantime. It is supposed that Lillooet is a "safe" seat and if its past record is to be taken we are not prepared to say that it is not. The chances are decidedly in Mr. DAVIE's favor in Lillooet.

Straitlaced Englishmen of the old school object to promiscuous smoking, as it is known in the United States, and in every large club in London there is a room set apart, generally on the top of the house, where the habit may be indulged. It would be a heinous offence to attempt to smoke in the dining-room or in one of the halls. This arrangement, however, does not suit Englishmen of the younger generation, and in several of the West End clubs where the old fogies predominate they have organized a determined "movement" for the enlargement of the club-smoking facilities. Failing in this, one or two clubs have been started where the members can smoke all over the house except in one room. So general has the habit become in London that men now smoke upon the fashionable promenades, even in Hyde Park on Sunday morning, and at the door of every club and every fashionable shop a lamp is kept burning that the smokers may fire up upon emerging.

In the American navy there is a regulation forbidding ships of war to take a pilot in American ports. The cruiser Boston recently ran upon a rock in Newport harbor and the water ran in through a hole ten feet long. It is remarked that the rule is a good way to teach captains the location of rocks, but that a ship is rather a high price to pay for teaching one captain the location of one rock. The rule of the American navy as regards pilots for war ships also applies, we believe, believe to the English navy. At all events the grounding of the Sultan and the collision of two English war ships in the English Channel, last week suggest that when it comes to steering ships the difference between the two nations is hardly worth cavilling about.

Although we are bound to accept the utterances of mainland papers with considerable allowance in their treatment of matters which affect Victoria, we are not to conclude that jealousy would prevent them from practically endorsing Mr. Davie's recent manifesto as the utterance of a sincere and disinterested cabinet officer. Not a solitary mainland paper, however, has discovered any virtue in Mr. Davie's manifesto to the electors of this city. Although in order to escape stultification, they must support the government at this juncture, they handle Mr. Davie as gingerly as the small boy does a handful of hot chestnuts. Not one of them have qualified their opposition to the Canadian Western by admitting that Mr. Davie's railway policy has been actuated by an honest purpose.

PROCLAMATION.
NOTICE

IS HEREBY GIVEN THAT CHANCELLOR Browning, Commissioner for the C. P. R., has this, the 26th day of July, 1889, issued a proclamation warning all persons from jumping Chaining lots from Samuel Greer in Lot 236, Group One. Now, may it please Your Lordship, I have never offered for sale any lots in said Lot 236, for that would be deception on the public, as the highest legal authority in British Columbia pronounced the title to that lot straw—not one cent as consideration having been given. Now, if Your Lordship will enlighten me, sir, and recover from your deep studies of pig and pasture from your deep studies of blackstone and the laws of setoppal, you will be able to see that the four Judges who threw their pens out of Court last April were not justifiable to comprehend the difference between 320 and Pre-emption Record 3008, this being the difference between 40 and 160 acres. Now, my lord, I have some down and see me. I have a few points lots (with a smattering of coal) yet left. Anxious to sell, and the public will prejudice Your Lordship, particularly as Your Lordship's property. Things will move fast the same at English Bay.

All parties are hereby warned that Agnes and Smith have no title to Lot 236 till confirmed by the Legislature, and all sales will be void.

TERRY'S DEATH.

He is Shot and Killed by a U.S. Marshal for Striking Justice Field.

San Francisco, Aug. 14.—David S. Terry, ex-supreme justice of California, was shot and killed at 7:50 this morning in the railway eating station at Lathrop, Cal., by Deputy United States Marshal David Nagle. The shooting was the result of a personal assault which Judge Terry was making upon Justice Stephen J. Field, of the United States supreme bench, while the latter was seated at the breakfast table.

Judge Terry had approached Justice Field from the rear, slapped the justice in the face with his hand, and was in the act of striking him a second time, when Deputy Nagle, who had risen and warned Judge Terry to stop the attack, drew a revolver and shot the latter through the heart, killing him instantly.

The deputy was acting as a body guard to Justice Field, under strict orders from the department of justice at Washington to protect the person of the jurist from personal assault at all hazards. An attack had been deemed probable owing to frequent threats attributed to Judge Terry. He was known to entertain strong hatred toward Field, which feeling was supposed to have been spurred on by his wife, Sarah Althea Terry, who claims to be the widow of the late United States Senator Sharon, and who has been endeavoring to prosecute a claim to the estate in the state and federal courts.

A decision rendered by Justice Field, sitting en banc with two other federal judges, last September, was adverse to her interests, and she was the means of creating a scene in the United States courtroom on that occasion which threatened to terminate in a tragedy. She was ordered in custody by the court for contempt. After interrupting the court when delivering the decision, charging him with being corrupt, she struggled with the bailiffs when they attempted to remove her by force, and had an active ally in Judge Terry, who drew a dagger, but was disarmed by the same deputy at whose hand he to-day met his death. For this act Judge Terry was sent to jail for six months for contempt of court.

When this occurred statements were publicly attributed to Judge Terry, declaring that he would have a personal settlement with Justice Field if he ever had occasion to meet him when or on released from arrest. These statements coming from a man who had killed Broderick in a duel and who was popularly supposed to be constantly armed and marvellously proficient in the use of weapons, were regarded as no light matter. The remark was certainly current throughout California that if Judge Terry ever met Justice Field in public a tragic scene would undoubtedly follow.

Justice Field ignored all propositions to arm himself, declaring, according to his statement to-day, that if the justice of the supreme court of the United States could not travel through his circuit in the performance of his judicial duties without protecting himself against assault, he would accept the consequences which might result to himself.

The United States marshal of the district, under authority of the department of justice, however, assigned a deputy to accompany Justice Field, and Deputy Nagle accompanied him to Los Angeles, and was at his side when Judge Terry approached and struck Justice Terry this morning.

Whether Judge Terry was aware of this fact is not known.

Although warned not to strike again, he aimed a second powerful blow at Justice Field, who was still sitting in his chair, but before the blow could be delivered he fell to the floor a dead man.

The south-bound overland train had arrived at Lathrop shortly after 7:30, and Justice Field entered the depot and took a seat at the head of the table, a short distance from the main entrance to the railway dining-room, Deputy Nagle taking a seat at his side. Justice Terry and wife entered almost immediately afterward and took seats at the same table, distant possibly twenty feet from that at which Justice Field was seated. Mrs. Terry instantly recognized Justice Field and at once left the room, returning to the sleeping coach. Returning toward the room with a satchel, she was met at the door by the proprietor of the restaurant, who knew all the parties, and refused her admission.

In the meantime Judge Terry had sat at his table never taking his eyes from Field, and finally he rose and walked toward the door, passing in the rear of Field. When opposite the latter he turned and struck him from the rear on the side of the face.

Deputy Nagle rose and cried out "Stop! stop!" but Terry had raised his clinched fist for another blow when the fatal shot was fired. A second shot immediately followed, but the ponderous form of Terry had fallen to the floor. He did not utter a word.

The alarmed people in the room immediately left, while Deputy Nagle announced to everybody that he was a United States officer in the performance of his duty and warned every one not to molest him. Nagle and Field then returned to the sleeping car.

In the meantime Mrs. Terry returned to the dining room and then made an attempt to board the sleeping car containing the justice and deputy. Her satchel was taken away from her, and was found to contain a revolver. She appealed to the crowd to make an attack on the car and seize Justice Field, contending that he had killed Judge Terry.

The overland train resumed its journey to this city, arriving here shortly after 11 o'clock, when Field joined his family in this city.

The body of Judge Terry was taken to Stockton, ten miles distant, where Deputy Nagle was also taken under arrest by a state officer to attend the inquest.

Judge Terry and wife had gone on board the overland train at the city of Fresno, south of Lathrop, which has been their home for several years.

No weapons of any description were found on the body of Terry.

"MUNSTER" OR "ULSTER."

TO THE EDITOR OF THE TIMES:

SIR,—Yours of the 9th contains an article headed "Distress in Ireland," written for the TIMES. Judging by the contents of it, it must have been written for the marines. That writer that wears the ulster, knows as much about Ireland as a North American Chinaman. He tries to hide his ignorance of the subject by the use of platitudes, euphonious words and vague generalities. First he brislabers the Irish with praise that they are bright and intelligent. Secondly I cannot return the compliment. Next he calls Irishmen agitators and impecunious, and posing as champions of self opinionated empire, whatever that means, political partisans and religious fanatics. What a nice dish of adjectives this frothy penner has liner places before us. But he has got a political doctor's prescription. It is better than coercion or the penal laws. He lifts the bushes to let the light shine. The cure is hard work and fine weather. Wonderful! His next chestnut is race distinction. He says the landlords are Teutons, which is silly bosh. The Irish generally call them of the tory breed anyhows, and are not at all concerned about their ancestors which were chiefly plundering Normans. Next he hops about like a Nicola grasshopper, and is off to India dealing out good things to Her Majesty's naked subjects. I cannot follow him, he covers too much ground. But he is back again to Ireland and this time he is acting the prophet, and telling what the Irish will do; but I am afraid he will receive very little honor in his or any other country. The next slander is for what he calls the local priest. It is as plain as a pikestaff that he is not an Irishman, or he would not use the term local in speaking of priests. It is a very mean slander to say that they are exciting their flocks. But go for them if you like, their fathers stood the penal laws, the ferocity of Cromwell, and their children will stand the brutality of Balfour. About the land question you tell the Irish to work more and save money for the purpose of paying the rent on a bad year. The landlords ought to furnish you with a dish of buttered parsnips for your good advice. If "Ulster" was in Ireland now he could get a job from the landlords or the London *Times*. So it appears from the vaporings of this strange scribe, that 175 years ago the Irish farmers understood the use of phosphates as manure, but were too poor to buy, therefore they burnt the land. Well I thought artificial manure was a recent discovery. I could say something about the burning but forbear. There is too much burning going on here now, and I suppose like Ireland, rash marriages will be the result. Taken altogether this queer production reminds me of the words of Shakespeare: "'Tis a tale told by an idiot, full of sound and fiery and meaning nothing.

Now "Ulster" dear, I greatly fear,
You need a nom de plume,
In future write in black and white,
Just write it Blatheroon.

The Canadian Pacific Land and Mortgage Company, Limited, (Foreign).

Registered the 10th day of July, 1889.

CERTIFICATE OF REGISTRATION.

THIS IS TO CERTIFY, THAT I HAVE THIS day registered "The Canadian Pacific Land and Mortgage Company, Limited, (Foreign)" under the "Companies' Act," Part IV, Registration of Foreign Companies.

The objects for which the Company is established are:

1. To purchase, take under any concession, lease, or in exchange, hire or otherwise acquire, settle, improve, farm and cultivate lands of any tenure, franchises and hereditaments situate in the Dominion of Canada, the United States of North America, or elsewhere, including any mines, minerals, ships, steamboats, barges, and other vessels, engines, railway wagons, tanks, reservoirs, manufacturing plant, apparatus and stock in trade, and any other real and personal property of whatever description, whether the same be unencumbered or subject to any mortgage, charge, lien, easements, privileges, licenses, concessions or otherwise, and to develop the resources of any such properties by building any kind of structure thereupon, planting, reclaiming, clearing, mining, quarrying, excavating, damming, draining, farming, and otherwise dealing with and working the same, and to stock lands and farms, and to breed, grow and deal in all kinds of stock, cattle, horses, sheep and produce, and to erect and maintain thereon suitable buildings and structures, including slaughtering, refrigerating, and converting establishments.

2. To invest money by way of advance, or loan at interest to any person or persons, or corporation, upon the security of any property and securities whatever, real or personal, including produce, crops and manufactures, government and all other stocks, bonds, mortgages, or securities, whether British, colonial, or foreign, and generally to buy, manufacture, deal in and sell all kinds of goods, chattels, merchandise, produce and effects.

3. To aid, encourage and promote immigration, emigration and colonization, and for such purposes to lend and grant any sums of money, and to act as agents therefor.

4. To work, win, convert, sell, use or otherwise deal with all or any mineral property of the Company, to construct or acquire, take concessions of purchase or lease, hire, maintain, improve, work and use, or aid in, or subscribe towards the construction, maintenance, improvement and working of roads, ways, streets, tramways, wire tramways, electric or other power, telegraph and telephone lines and works, or other means of communication or appliances of a similar nature, railways, rail way stock, locomotives, engines, docks, piers, harbors, quays, wharves, landing stages, jetties, slips, stores, bridges, canals, channels, wells, buoys, lights and beacons, viaducts, aqueducts, water works, flumes, culverts, ditches, warehouses, factories, shops, churches, chapels, schools, libraries, institutes, inns, foundries, brick kilns, reduction works, gas and water works, electric lighting or power works, hotels, mills, undertakings, works, and other buildings and structures, of every description, and for the above purposes to enter into and carry into effect any contracts, and apply for, accept, and carry into effect such concessions, licenses or authorities as may be deemed necessary or advisable.

5. To acquire running powers, rights or easements over and to make arrangements with any companies or persons for the joint working of any railway, tramway, or line of electric wire, or other similar means of communication.

6. To build purchase, charter, hire or otherwise acquire, maintain, repair and use steam and other ships and vessels, and to carry on the business of ship owners, lightermen, wharfingers, dock owners, warehousemen, ship chandlers, commission and shipping agents, and to levy cranage, anchorage, lighterage and other dues and tolls, either in connection with the other businesses of the Company, or as an independent source of profit.

7. To transact all manner of agency and commission business, and in particular to act as agents for any persons or corporation in the purchase, sale or management in any way of lands, hereditaments and other property in the Dominion of Canada, the United States of North America, or elsewhere, where the Company may for the time thus being be carrying on business, and to carry on the business of general, commercial, mercantile, shipping or forwarding agents, or agents for any railway, steamship, or other company.

8. To accept and hold any property whatsoever upon any trust whatever, and to make advances against the same, and to issue debentures there against, and to act as trustees, attorneys or agents of or for any persons, living or dead, or of any company, corporation, public body or supreme government, and also as real or personal representatives of any deceased persons.

9. To transact all business connected with the investment and loan of money at interest, to receive money on deposit, and generally to transact and carry on every description of banking, discount, exchange and financial business.

10. To make, draw, accept, indorse, discount and execute promissory notes, bills of exchange, and other negotiable instruments.

11. To build, lay out, sell, colonize and develop towns and villages on the lands required or controlled by the Company from time to time.

12. To purchase or otherwise acquire the exclusive or limited right to use information as regards any inventions, whether patented or not, which may seem capable of being used for any purposes of the Company, or the acquisition of which may seem calculated, directly or indirectly, to benefit the Company, and to acquire any grants, charters, concessions, patents, patent rights, monopolies, brevets d'inventions, copyrights or licenses, and to use, exercise, develop, grant licenses in respect of, or otherwise turn to account the property, rights and information acquired.

13. To take or otherwise acquire, and hold or sell shares, stock, debentures, or any other interest in any other company, whether British or foreign, in which the liability of the members is limited, having objects altogether or in part similar to those of this Company, or carrying on any business capable of being conducted so as directly or indirectly to benefit this Company.

14. To purchase or otherwise acquire or undertake all or any part of the business, property and liabilities of any company, corporation, society, partnership or persons carrying on, or about to carry on, any business which this Company is authorized to carry on, or which is in any respect similar to the business for the time being of this Company, or which is capable of being conducted so as directly or indirectly to benefit this Company, and to make and carry into effect arrangements with respect to the sharing of profits, union of interests or amalgamation, either in whole or in part, of this Company with any such company, corporation, society, partnership or persons.

15. To dispose of by sale, lease, underlease, exchange, surrender, mortgage or otherwise absolutely, conditionally, or for any limited interest, all or any part of the undertaking, property, rights or privileges of the Company as a going concern or otherwise, to any public body, company, society or association, or to any person or persons, and in particular to any other company having objects altogether or in part similar to those of the Company, and to accept as the consideration, or part of the consideration for such disposal money, stock shares, debentures or other securities, either for distribution in specie among the members or otherwise.

16. To subscribe for, take, acquire, hold and sell the stock, shares, scrip, certificates, bonds, obligations, debentures and securities of any other company, or of any supreme, municipal, public or local board or authority.

17. To borrow and raise money for the purposes of the Company in such manner and upon such terms as the Company shall think fit, and to secure the repayment thereof by bonds or debentures, or by redeemable or unredeemable debenture stock (such bonds, debentures and debenture stock being made payable to bearer or otherwise) or by any other instruments, or by bills of exchange or promissory notes, or in such other manner as may be determined, and for any such purposes to charge all or any part of the property of the Company (both present and future), including the uncalled capital.

18. To obtain any provisional order or Act of Parliament, or legislative provision, decree or order of any colony, foreign government, body or authority, to incorporate the members as a body politic or corporate, in accordance with the laws and constitution of any country or state in which the Company shall be carrying on, or be desirous of carrying on, any of its operations, and to take all steps and do all things necessary to give the Company, or any company subsidiary thereto, a legal domicile in any such country or state, and such legislative powers as will facilitate the carrying into effect of the objects of the Company thereby.

19. To give any guarantee of whatever description in relation to the stock, shares, debentures or other securities or obligations of any company or supreme, public, municipal or local body or authority, and generally to guarantee the performance of any covenant or obligation.

20. To transact all business connected with the investment and loan of money at interest.

21. To allot the shares of the Company credited as fully or partly paid up as the whole or part of the purchase price for any property purchased by the Company, or for any valuable consideration.

22. To appropriate and apply such parts of the capital of the Company as may be expedient to the payment of such brokerage, discounts and other expenses as may be deemed incidental to the formation and promotion of the Company, and the placing of its shares and debentures, or any part thereof.

23. To aid any government or state, or any municipal, local or other body politic or corporate, or company or association, or individuals with capital, credit, means or resources, for the prosecution of any works, undertakings, projects or enterprises.

24. To do all or any of the above things in any part of the world, and either alone or in partnership or conjunction with any person or other association, and either as principals or agents, and to contract for the carrying on of any operation connected with the Company's business by any person or other association.

25. To carry out the objects comprised in each paragraph of this clause in as full and ample a manner, and construed in as wide a sense as they would be construed if such paragraph of this clause defined the objects of a separate, distinct and independent company, and so that such objects shall not, except where otherwise expressed in such paragraph, be restricted by reference to the objects indicated in any other paragraph.

26. To do all such other things as are incidental or conducive to the attainment of the above objects, or any of them, or which the Company shall consider incidental or conducive to the attainment of the above objects, or any of them, and so that the word "company" in this memorandum shall be deemed to include any partnership or other body of persons, whether corporate or incorporate, and wherever domiciled.

The amount of capital stock of the said Company is £250,000, divided into 25,000 shares of £10 each.

The place of business of the said Company is located at the City of Victoria, in the Province of British Columbia.

In testimony whereof I have hereto set my hand and affixed my seal of office this 10th day of July, 1889, at the City of Victoria, in the Province of British Columbia.

—Persons who say they have seen sea serpents are exposed to the jibes and jeers of skeptical journalists, and so far no sea serpent has had the decency to come into port, appear before a justice of the peace and set all doubts at rest. The captain of the barque Nautilus, knowing this unamiable quality of sea serpents, took the precaution to shoot one dead, so that he might produce its body before a court of competent jurisdiction. Wily, even in death, the animal sank to the bottom. And the journalists continue to jibe.

Death.

Joseph Lister, a pioneer, died at the Royal Hospital this morning from heart disease. The deceased was a cook by trade, and a native of England, aged 46. Before being taken sick he had been employed in the different canneries on the Fraser.

Grass Fire.

The usual grass fire occurred this afternoon at Spring Ridge, near the gravel pit. A telephone message from Joshua D. Pim's residence called out a number of the fire with the horse hose reel. The fire was extinguished before the firemen reached the locality. Two small boys with matches caused the blaze.

Fine Decorations.

The Pritchard House shows one of the latest and best evidences of the decorators' art. The ceiling and walls have been beautifully hand painted after the latest and most approved fashion, giving the place the appearance of a first class sporting house, such as one might see in a large city. The Pritchard is a house of shelter and refreshment which keeps pace with the times.

1889-90

For the fall and winter trade of 1889-90 Messrs. A. Gregg & Son, Artist Tailors, Yates street, have just received a large and well-selected stock of imported woollens, comprising Scotch and English tweeds, fine worsted diagonals, new novelties in trouserings and a large range of the most fashionable shades and designs of light and heavy weight overcoatings. Right here we wish to impress on the minds of the gentlemen of this province that this stock was never surpassed by any heretofore imported to this province, these being the same goods as those sold by foreign manufacturers for the New York trade. Messrs. A. Gregg & Son invite an inspection of these goods.

CHIEF ENGINEER DEASY

All His Time to be Given to His Duties—Salary Increased.

The city council, at its last meeting, passed a by-law increasing the salary of Chief Engineer Deasy from $80 to $100 per month. Hitherto the chief was not required to give his whole time to the position on account of the small salary attached, but the increase is now made to enable him to devote his entire attention to the department of which he is the head. For several years past Mr. Deasy has occupied a responsible position in this office as a reporter, and at times as collector, etc., all the time discharging his duties as Chief with complete satisfaction to the fire wardens, the council and the public. But the importance of the position has of late received a recognition which had never before been given to it, and the council, taking warning by the fate of other cities, has wisely concluded to put the fire department in a thorough state of efficiency. The Times knows an honest, energetic and capable employee, and the city gains the permanent services of an officer whose fidelity to duty is only equalled by his intelligent appreciation of the work he is called upon to perform and a rare earnestness and assiduity which is brought to the accomplishment of every task. Mr. Deasy leaves The Times office to the great regret of every person connected with it. As head of the fire department, we feel convinced he will continue to give satisfaction to the city, and by giving his whole time to the department we feel certain important reforms and a more efficient service than ever will be the result.

Must be Active.

The friends of Dr. Milne must be active. The minions of Mr. Davie are everywhere and are ready to deny anything and everything. Elector must not be deceived, but carefully inquire into history of the man.

Heard From.

The late superintendent of provincial police, H. B. Roycraft, has been heard from in the flourishing Texas city of Austin. The effects of his late residence will be sold by auction in a few days by the sheriff, for the benefit of the creditors.

More Brick.

Mr. M. Colin invites tenders for the erection of a two-story brick building at the corner of Pandora and Broad streets. The dimensions are to be 50x37 feet, the building when completed to be used as a blacksmith shop. It is to be completed by the end of September.

Resignation.

Mr. James Hills, who for several years past has held the responsible position of postmaster at Wellington, has sent in his resignation to the postoffice department. His duties as manager of the company's store prevents his attendance to the postal duties, hence his resignation.

Dr. Talmage.

The hopes of the lovers of oratory have been raised without any foundation by the announcement of the *Colonist* of this morning that Dr. Talmage would arrive to-night. Those who built from this notice on hearing him preach Sunday next will be disappointed to learn that he is announced to lecture in Seattle to-morrow evening.

High Grade Stock.

The Tolmie farm, the pride of which has always been to raise the best stock possible, has increased its live stock by the addition of two high grade Berkshire pigs, each three months of age, for breeding purposes. These fancy swine arrived a few days ago from the stock farm of Andrew Smith of California, and are said to be unexcelled by any in the province.

Unsound Mind.

An individual named John Hanbury was locked up this morning for being of unsound mind. He is perfectly harmless and was examined by Dr. Milne, who pronounced him slightly deranged. On being searched he disgorged a standard dollar, and was quite sure he had no more. On closer examination a ten-dollar bank bill was found on him, which he could not account for as to how he got it.

Hair Seal.

The Times has always said that the exclusive *Colonist* did not know its own country. Its dissertation on "hair seal" is amusing. Who ever heard that "hair seal" were "a rarity on the Pacific coast?" Who ever supposed before that "no attempt had yet been made to utilize the 'rarity' so to speak on this coast? Why some of the Victoria fur dealers have hundreds of the pelts of fur seal on hand at the present time.

Uniform Rank Formed.

The Knights of Pythias of this city are to be congratulated on forming that desideratum of all knights, the establishing of a Uniform Rank. A meeting for this purpose was held last night, when the following officers were elected: Sir Knight Commander, H. Behnsen; Sir Knight Lieut.-Commander, A. Black; Sir Knight Herald, R. Plummer; Treasurer, D. F. Fee, jr.; Recorder, A. Lewis. The contract for the uniforms was awarded to Leask & Morrison.

Tired of Life.

A Chinaman named Ah Yung, who has lately been employed around D. E. Campbell's drug store, attempted suicide last night by swallowing half an ounce of raw opium. Dr. Milne and Dr. Walkem, after working on him for some time, finally brought him out of danger. It is supposed that Ah Yung knew something about the recent robbery of $267 from Campbell's drug store, which, together with heavy losses as the seductive game of fan tan, caused despondency enough to make life unbearable to him.

Alexander—McWhinney.

The marriage of Mr. Richard Henry Handcock Alexander, eldest son of Mr. R. H. Alexander, manager of the Hastings saw mill, to Miss Gertrude Helena McWhinney, a sister to Mrs. Charleson, took place on the 14th at St. James' Church, Vancouver, the ceremony being attended by a very large number of the friends of the bride and groom. Mr. Ainsley Mount, of the Hasting Sawmill Co., acted as best man. The bridesmaids, of whom there were four, were Miss Alexander, sister of the bridegroom, Miss Bodwell, and the two little Misses Charleson. The first day of the honeymoon will be passed at Harrison Hot Springs.

A Pair in Limbo.

A clever capture was made early this morning by Deputy Sheriff Z. T. Holden, of Seattle, assisted by two police officers. The parties captured were a Seattle gambler named Barney Martin and a woman claiming to be his wife. Martin is wanted in Seattle for grand larceny, having stolen over $200 in coin and valuable jewelry from a lodging-house keeper of that city named Annie Wilson. At the time of his arrest he was on the Islander bound for Vancouver. When searched in gaol $176 was found on his person. They are both charged with bringing stolen money into Canada and gave their names at the police station as Mamie and Harry Parnell.

Truly Economical.

The use of asbestos packing in the city fire department for heating purposes is a novelty and a success. Formerly, water in the fire engine boilers was kept warm by the use of thirty-five gas jets. Now but seven small jets are used, leading into a pan filled with asbestos packing, which throws off more heat than the thirty-five gas jets formerly did. And the beauty of the thing is that the asbestos does not burn; but simply throws off a powerful heat aided by the seven gas jets. Twenty-five cents worth of asbestos will last for a month. The novelty, which was discovered by the boys of the Deluge engine house, will save the ratepayers considerable in the monthly gas bill.

Fire Department Notes.

Chief Ackerman, of the New Westminster fire department, returned home this morning. Last evening the Deluge hand-engine was inspected by him and he was favorably impressed with it. It is likely it will be purchased by the Royal City corporation.

The Deluge steam fire engine is to receive two new hind wheels, which are being made by Mr. John Meston.

Contrivances have been made to allow vehicles to pass over hose when laid in the street without damaging the hose.

Two thousand feet of hose from the Toronto Rubber Co. have arrived and ready for active service.

Chief Engineer Deasy, under the new regulations, will devote his time solely to the fire department. He begins to-day, giving his whole time to the service.

The Doctors Arrive.

Several of the medical men of the eastern part of the Dominion who have been attending the convention at Banff, arrived here last evening and will be followed this evening by Dr. Ross, of Toronto, president of the Medical Association. Dr. Wright, president elect, and Dr. Bruce Smith, of Seaforth, Ont., one of vice presidents elect, Dr. Blakery of New York, and Dr. Marley, of Boston. Among those who arrived last night were the following who are at the Driard: Dr. Charles O'Reilly, superintendent of Toronto medical hospital; Dr. Gerald O'Reilly, Dr. Henderson, Dr. Strange, Dr. Lehman, Dr. B. A. Reeve, Dr. Oldright and wife, Toronto; Dr. Whyman, Buffalo; Dr. and Mrs. P. S. Connors and Dr. Connard and wife, Cincinnati; Dr. A. Hender on and wife, St. Paul; Dr. D. E. Carr, Montreal; Dr. Smith, of Seaforth, and Dr. McLean, Fergus Falls.

At the Clarence there are Drs W. G. Stark, of Hamilton, Ont.; C. M. Lymas, of New York, and J. H. Cameron, of Toronto, Ont.

THE ANNUAL VISIT

Made to the Water Works by the Mayor and Aldermen.

The annual visit of the mayor, aldermen and officials of the executive department of the corporation to the water works was made yesterday, accompanied by some twenty invited guests.

About 7 o'clock a portion of the party, including Messrs. Pickering and Hill, drove to the highland, near the Jewish cemetery and walked over the route of the pipe from that point to where it strikes the Saanich road, two and half miles distant. The pipe being still uncovered a thorough examination of the work was capable of being made. In order to give the reader an idea of the undulating character of the country through which the pipe runs it may be stated that from the starting point referred to, where the pipe is 155 feet above the level of the sea, it dips gradually to a level of 104 feet, rising again to 130 feet. From the 130-foot level it again runs down grade to a 90 foot level, or about the same elevation as Cook street and the head of Pandora street. It changes its course slightly and then ascends to a height of 144 feet. These undulations continue till the pipe strike the Saanich road, which it follows. When the Royal Oak is reached the West Saanich road is followed to a point near Stevens', where it goes to the right and connects a half a mile beyond with the lake.

The examination of the pipes failed to corroborate reports to the effect that the pipes were leaking badly. One or two jets were seen on the portion of the line traversed on foot, which can be easily repaired, but beyond these and a few weepings no defects were perceptible.

On arriving at the lake the party embarked in scows and rowed over a portion the lake and sampled the water and discussed the floating islands, etc. After the row the party proceeded to Stevens' hotel about 2.30 p. m., where a most sumptuous repast was spread and thoroughly relished as the aldermanic appetite had a keen edge on it after the long tramp of the morning and a fast extending beyond regulation hours. Mayor Grant occupied the chair at the head of the table and attended to his guests in his usual royal style and without consideration for himself. Alds. Wilson, Coughlan and McKillican, occupied the vice chairs.

After dinner the usual patriotic and other toasts were drank and responded to. Mr. Pickering and the other speakers, with the exception of ex-Mayor Fell, attested to the satisfactory showing of the "stove pipe" main. The principal objections of the latter, however, were to what he believed the lack of durability possessed by the smallest of steel pipe. Practical men asserted that the "weepings" of the pipe in some places were of no consequence whatever and would soon disappear altogether. Ald. Coughlan intimated that when the pipes were carried to the head of the lake the quality of the water would be greatly improved and Victoria would have as good a water supply as could be desired for. All the speeches took a hopeful view of the future and expressed satisfaction with past progress. After a view of Mr. Stevens' magnificent orchard, where the plum trees are breaking down with a wealth of fruit, notwithstanding that bushels upon bushels are lying on the ground, the party entered carriages and drove to the city arriving about 7 o'clock.

THE RELIGIOUS QUESTION.

Arrival of Mr. Dalton McCarthy—A Holiday Trip.

Mr. Dalton McCarthy Q.C., whose movements on his way to the coast have been duly chronicled in the special despatches to the Times arrived here last night. For many years Mr. McCarthy has been a prominent figure in Canadian law and politics and has always been looked upon as one of the ablest public men in the country. Like many other public men who have made their mark, he had a long uphill fight, against an able opponent, before he was elected to parliament but having once succeeded in being sent to represent the North Riding of Simcoe, Ontario, he rapidly rose into prominence. The Liberal papers used to say he was the "brains of the Conservative party," an expression which although not intended to be taken literally was calculated to pay him as high a compliment as it was possible to extend to any one. In the House of Commons, where he has taken first rank as a parliamentarian, his course is well known too many of our readers. Always a leading spirit in the Conservative party and an old personal friend of Sir John Macdonald, he decided to divide with him on the Jesuit question and delivered a speech in the House of Commons on the subject which has been widely read and commented upon. As a contemporary says of him, he has been for some time recognized as the leading spirit in and most prominent representative of the reactionary movement, which, with the *Mail* as its exponent, revolted against what is known as French domination, and what is regarded as the undue influence of Roman Catholic ecclesiasticism in Canadian and especially Ontarian politics.

Mr. McCarthy, on being interviewed, gave some of his views on anti-Jesuitism, which it is needless to say are decidedly pronounced. He said he had been pressed to deliver addresses everywhere on this and other subjects, but as he was on a holiday trip he wished to avoid everything in the speaking line, and to enjoy what was the object of his visit, rest and recreation. The agitation against Quebec domination has spread to the Maritime provinces of the Atlantic, and everywhere throughout the Northwest he found people most enthusiastic on the subject and anxious to have him speak on it. The government of Manitoba was about to abolish separate schools and the dual languages in the province, and were thoroughly in earnest about it. The feeling in Ontario was very strong and was rapidly crystallizing itself into a new party that would be a power at the next elections. The agitation in the extreme east and west ends of the Dominion he did not consider was what it should be considering its importance to the future. On the definite settlement of this question he considered that the future happiness and well being of the Dominion depended. It was one which must come before parliament and the country in a definite and uncompromising way. Sir John, he predicts, will find next session one of the most trying in his political career.

Mr. McCarthy said he had been asked to deliver addresses in New Westminster, Vancouver and Victoria, but as this was merely a pleasure trip he wished to avoid speaking as much as possible. He spoke at Portage La Prairie, Manitoba, and at Calgary, but he was almost forced to do so. He is accompanied by Mr. F. B. Pepler, Mayor of Barrie, and his law partner in that city. They will leave on Monday morning for the Sound.

Art School.

Parties wishing to obtain instructions in art needlework, painting, etc, would do well to call on Mrs. J. B. Fraser, 139 Pandora avenue. Mrs. Fraser, as many are aware, is a very competent artist and capable of giving instructions in all kinds of painting and those other arts which go to make the accomplished girl and woman.

The Prince Steamer.

There will be no steamer leaving for San Francisco to-morrow, owing to the Umatilla being aground near Tacoma. The Walla Walla will take all the freight on the Sound, which was to have been forwarded by the Umatilla. In case the latter steamer should get free to-morrow she will leave at once for San Francisco, not calling at Vancouver. There was no favorable news at the time of going to press, and in marine circles it is believed there will be considerable trouble to float the stranded vessel.

aug14

To the Electors of Victoria City District:—

GENTLEMEN:

In accepting a portfolio in the Government, my primary object is the construction of another trans-continental railroad, which, penetrating the northern part of British Columbia, and opening up the important district of Cariboo, will traverse Vancouver Island, making Esquimalt or Victoria its terminus.

It will be my endeavor, should you honor me with your confidence by re-electing me, to apply the resources of the country, so far as can be legitimately done, in furtherance of this project, which as a private member I strenuously advocated during the last session of the House.

It was upon the understanding that the Northern Railway should be a matter of Government policy, that I agreed to enter the cabinet.

I shall take the opportunity of entering into particulars at public meetings, which I intend to call for the purpose, during the course of the canvass.

I am, gentlemen,
Your obedient servant,
THEODORE DAVIE.

TENDERS.

TENDERS ADDRESSED TO THE UNDERsigned at Ottawa, and endorsed "Tender for Discovery Island Fog Alarm," will be received up to the 7th Sept., next, for the construction of a Framed Fog Alarm Building at the Discovery Island Light station, in Haro Strait, B. C.

Plans and specifications can be seen, and forms of tender procured at this Department, Ottawa, at the Agency of this Department Victoria, and at the Post Office, Nanaimo and Vancouver.

WM. SMITH,
Deputy Minister of Marine.

Department of Marine,
Ottawa, 31st of July, 1889. aug15

To the Electors of the City of Victoria.

GENTLEMEN:—

In complying with the request of a number of the citizens of Victoria to stand for the seat now vacant in the Legislature, I do so believing that at no distant date questions will arise requiring careful consideration, and calm and just decision. Many of the late actions of the Provincial Government have not met with the approval of the majority of our citizens, notably the amendments to our school law. The amendment to our Public School Act of 1888, where it provides that the cities are called upon to pay the expenses of operating their schools, and also enacting that the cities shall pay one-third of the salaries of their teachers, is, I consider, a law unfair and unjust. If elected as your representative, I shall endorse the action of our city aldermen, in refusing to pay the expenses and portions of salaries demanded by the Government. I shall also, if elected, use my efforts to have the present School Act so amended as to eliminate many of its features, which I consider have been introduced to give power to the Government in matters which should be left in the hands of the Trustees—the proper representatives of the people in school matters. I shall always uphold our free and non-sectarian school system. As the School Act now stands it is in many respects merely a political machine.

I shall use my best endeavors to obtain a grant of land or money for the establishing of a University, to be erected and maintained in the City of Victoria, as it is time such an institution should be founded for the higher education of the young people of this province. Victoria being the capital, as well as having many natural advantages, is by far the most suitable place for such an important provincial institution.

I am in favor of subsidizing any railway asking reasonable aid, making Victoria its terminus. As the Canada Western Railway is now a matter of fact, by legislation passed last session, I shall, if returned, use my influence to have the same completed at as early a date as possible, with its terminus at Victoria or Esquimalt.

The land laws of our province should be carefully guarded; and I believe it is in our interest to conserve our timber lands, and that they should not be locked up in large tracts in the interest of speculators.

The development of the mineral wealth of this province requires our earnest attention. Legislation tending to this end will receive every assistance from me.

It will be my most earnest desire to have Victoria made as far as possible the point of arrival and departure for lines of steamers either from the Chinese seas or Australasia.

In a few days I hope to have the pleasure of addressing you on the various provincial questions. In the meantime I solicit your influence and vote.

I am,
Yours respectfully,
G. L. MILNE
